SIMATS ENGINEERING

Respected Parent

Warm Greeting from Saveetha School of Engineering, SIMATS, Chennai.

PARUCHURI YASWITA has completed 34 courses till February 2026 end semester examinations. She is advised to keep the attendance above 80% which makes her eligible for appearing end semester examination.

Your ward continues to demonstrate a strong spirit, genuine enthusiasm, and a steadily deepening knowledge base. She is friendly, open-minded, and readily engages in meaningful discussions, reflecting both confidence and a collaborative attitude. Her positive outlook and active participation greatly contribute to creating a supportive and engaging classroom environment. As beautifully expressed in the saying, "With rising flood the rising lotus flower its stem unwinds; the dignity of men is measured by their minds," true growth lies in the continuous elevation of one's knowledge and mindset. In this spirit, students are encouraged to remain focused on their studies and maintain regular attendance to prevent academic challenges such as course repetition or withheld results. To ensure steady academic progress, it is essential that your ward dedicate at least two hours each day to revising classroom material, with an additional two hours over the weekends to reinforce her understanding of ongoing subjects. For holistic development, we also encourage her to further strengthen her interpersonal and communication skills. Active participation in NPTEL certification courses, aptitude training, language enhancement programs, and technical skill-building activities is strongly recommended, as these will help her achieve academic excellence and prepare for future professional success.

Interest : Kho-Kho To be improved : Confidence
Aim : Fullstack Developer Overall performance : Very GOOD.

Thank you for your continued support and cooperation.

Dr. K.SELVAKUMARASAMY

Mentor - Department of RF and Communication Systems
